

Goals of the Facilities and Transportation Committee

Facility Planning - Physical Plant; Building, Structures

Perform a Facilities Audit of all 11 buildings including an evaluation of staffing patterns. This is the basis / base line for a Facilities Capital Plan for the RSU. As we proceed we will also propose and Review Cost Savings Ideas - projects and Ideas.

Transportation

Implement State Transportation Software as soon as practical. Included in this is defining a working solution for:

- (i) Determining the best start and end times for schools as it relates to transportation and proposed curriculum.
- (ii) Evaluate staffing patterns
- (iii) Determine Single vs. Double Bus Runs
- (iv) Most Efficient Bus Routes taking into consideration:
 - a) Student Densities
 - b) Number of buses needed (including bus size)
 - c) Evaluating using Van or wagons when deemed appropriate
 - d) Determining a walking plan
 - e) Determine number and location of clustered bus stops
 - f) Determine efficient number of students per bus run
